EXPERIENCE

2016 - Present

Associate UX Developer

Developing mobile-first, responsive web applications with HTML5, CSS3 and Js. Usability and performance testing throughout development lifecycle. Utilizing Node Js and Grunt as local development tools. Latest project - CNN's *Politics State*.

2016 - 2016

Web Integration Specialist / ON24

Installing and coordinating web products in a fast-paced, time sensitive environment. Working with API's and data integration tools such as Scribe. Performing technical integration with systems such as Marketo, Eloqua, HubSpot, Pardot, Salesforce.com. Troubleshooting and debugging web applications.

2012 - 2016

Software Support Analyst / BMS

Providing trustees and paralegals with software application support in a fast-paced environment. Technical support and troubleshooting for clients via voice, email, remote desktop, and chat. Compiling SQL queries for research and analysis reports. Implementing policy and procedure training for all new hires. Software applications include SalesForce.com, Cisco WebEx Support Manager, Go To Assist, Zeacom Desktop, Microsoft Lync.
